Internal Control Policy

Scope of Responsibility

The Accounts and Audit Regulations 2015 state that a Council shall be responsible for ensuring that its financial management is adequate and effective and that it has a sound system of internal control which facilitates the effective exercise of the Council's functions and which includes arrangements for the management of risk.

Mundford Parish Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively.

In discharging this overall responsibility, the Council is also responsible for ensuring that there is a sound system of internal control which facilitates the effective exercise of the Council's functions and which includes arrangements for the management of risk.

The Purpose of the System of Internal Control

Internal control is designed to reduce financial risk to the Council. The system of internal control is designed to ensure that the council's activities are carried out properly and as intended. Internal controls are set up by the Responsible Finance Officer (RFO) but it falls on the Council members to ensure that they have a degree of control and understanding of those controls. Controls will include the checking of routine financial procedures; the examination of financial comparisons; the recording of assets and liabilities; the identification of risk and to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.
