Dear Resident,

A47 Works – East Tuddenham

Highways England operates, maintains and modernises the strategic road network in the East of England. We are committed to making journeys more reliable and ensuring that the region's roads are fit for now and for the future.

- Road surface improvements
- Refreshment of road markings and studs

The work is planned to start on **Wednesday 11 September 2019** and is programmed to take approximately **4 nights**. Our working times will be between the hours of **8pm** and **6am** on **weekdays only**. Should there be a requirement to significantly re-programme the work, a further notification will be issued.

These road improvements are necessary to maintain the strategic road network along the A47. This will add benefits such as a better road surface, safety improvements and an improved journey for our customers.

Traffic restrictions

We are aware the affect traffic disruption has on our customers and the local community and will only be diverting traffic onto local roads when absolutely necessary. Where we do need to close the A47 and divert traffic, we closely consult with the local authority to agree the most appropriate route and timings.

The following road closure will be in place between **8pm** and **6am** on **weekdays only**.

- **Closure** of the A47 between North Tuddenham and Honingham **Wednesday 11 September to Monday 16 September (Diagram A)**

Please note that these works are subject to weather conditions and dates may change, notices onsite will provide the most up to date information.

We have included the diversion map for this closure at the end of this letter.
